

MESP Closing International Conference

“Cities and Ports: Challenges towards a sustainable environment”

9 September, 2015 - Tripoli, LEBANON

Order of Engineers – Conference Hall, Tripoli, LEBANON

“Cities and Ports: Challenges towards a sustainable environment”

Invitation

Under the auspices of his excellency the Director General of Land & Maritime Transport Engineer Abdel Hafiz Al Kaissi, the Office of Exploitation of Port of Tripoli and Al-Manar University of Tripoli organize on the 9th of September 2015 in Tripoli – Lebanon:

The MESP Closing International Workshop:

“Cities and Ports: Challenges towards a sustainable environment”

With the participation of the Urban Community of AL FAYHAA, the University of GENOA, La Spezia Port Authority, the Physical Oceanography Marine Science Station in Aqaba, and the Municipal Enterprise for Planning & Development of Patras.

The seminar is addressed to local administrations, ports and public and private actors involved and interested in Ports operations and their environmental impact in the three sectors of Water, Air and Noise. The activity is part of the project **“Managing the Environmental Sustainability of Ports for a durable development (MESP)”** funded by the European Union.

In the following weeks, information on the programme and the logistics of the seminar will be updated on the MESP website www.mesp.org

Dr. Walid Kamali - Email: walid.kamali@gmail.com; Tel: (961)70139077 -(961)6426800 ext.253

Eng. Abdelrahman Hajar - Email: abdelrahman_hajar@yahoo.com; Tel: (961)3861657 (961)6601225 ext.153

Conference Venue

Tripoli is the second-largest city in Lebanon and is situated 85 km north of the capital Beirut. Tripoli overlooks the eastern Mediterranean Sea and is the easternmost seaport in Lebanon. It holds offshore a string of 4 small islands and borders the city of El Mina, the Port of the Tripoli District, which it is geographically conjoined with to form the greater Tripoli conurbation.

The Workshop will be held in the conference hall of the Order of Engineers in Tripoli.

Languages

English and Arabic will be the formal languages for all presentations and discussions

Themes

The seminar will be organized in 2 round tables, proceeded by an opening session

Accommodation

Information about accommodation will be announced on the conference webpage: www.mesp.org
